## SPOTLIGHTS

### Senior Spotlights

#### Makayla Green

Makayla Green is the daughter of Wayne and Brandi Green. Makayla has attended Maysville public schools for her entire school career. After high school she plans to pursue a college degree. The colleges Makayla is considering attending are Murray State College, Southwestern Oklahoma State University, Redlands Community College and Oklahoma State University.

The one thing that Makayla wants everyone to know about her is that she is hardworking, determined and willing to help wherever she is.

The thing that Makayla would like colleges to know about her that might not be obvious is that her family farms and ranches so she has grown up around farming which has allowed her to work alongside her parents. They are extremely hard working and have showed her that with hard work comes rewards.

Makayla's favorite academic experience is being in the FFA since 8th grade and she is grateful for what the program has taught her. Her most favorite non-academic activity would be showing cattle. She started showing when she was nine years old and it has been a passion of hers ever since. It takes a lot of hard work but it has instilled many experiences in her that will help her succeed and be a better person.

The accomplishment that Makayla is most proud of is being elected FFA president because it is something she has strived to achieve. Also being elected reporter and south west district representative of the Oklahoma Junior Angus Association.

The person Makayla most admires is her dad. He has taught her many different life lessons

that will help her excel in her future. He has taught her to make decisions on her own without waiting for someone else to make them for her and also to meet as many people as possible, connections and friends are an important part of life.

Her future goals are to attend college and earn a degree in whatever she decides to do. Then start her career and work as hard as she can then hopefully get married. The hardest decision she has had to make is where she will attend college at.

Makayla does well in a smaller classroom setting where the teachers are able to engage more on an individual level. She is involved in FFA, Beta club, NHS in school and the Oklahoma Junior Angus Association outside of school. She does not plan to pursue any of these after high school but rather focus on a career.
