

Maysville Public School
Child Nutrition and Physical Fitness Program

Policy Evaluation
February 2018

Success of the Maysville Wellness Policy will be evaluated on the number of students who participate in regular school-based physical activity. Wellness success will occur if over fifty percent (50%) of the student body participates in regular school-based physical activity. Wellness success will also be determined by the nutritional items offered to the student body. If nutritional items offered comply with the USDA regulations and Smart Snack guidelines, then the wellness success is achieved. Site principals will monitor and evaluate the progress of the policy, reporting back to the superintendent.

SCHOOL-BASED PHYSICAL ACTIVITY

Total District enrollment = 328

Total Student participation = 277

Student Percentage Participation = 84%

SUCCESS

NUTRITIONAL ITEMS OFFERED TO STUDENTS

When snacks are available to students, they meet USDA regulations and Smart Snack guidelines determined by using the calculator located on the following website:

https://www.healthiergeneration.org/take_action/schools/snacks_and_beverages/smart_snacks/alliance_product_calculator/
